Active Corporate Wear

MADE WITH SPORTS DNA.

We make people move at gyms, tracks and courts. On slopes and forest trails. And in workplaces all over the world. Our Active Corporate Wear collection is inspired by everything we've learned from making functional garments for the world's greatest athletes.

Bringing fit, durability and breathability to the modern workplace, our clothes are designed to make the most out of office hours and beyond. Inspiring co-workers to take the stairs more often, schedule more meetings outside and make exercise a part of the daily routine. Studies show that active workplaces enjoy higher productivity, happier employees and fewer sick days. So don't be surprised if the next quarterly report goes one step further.

Outdoor

Our Outdoor range allows you to experience everyday adventures with great confidence. This comprehensive collection includes items that protect against the elements, offering excellent comfort during casual excursions.

ADV Explore Power Fleece Hood Jacket

MEN	1915240	S-4XL
WOMEN	1915241	XS-XXL

ADV Explore Power fleece Hood Jacket is a stretchy and highly functional fleece jacket that makes a versatile and essential addition to any outdoor enthusiast's wardrobe. This advanced hood jacket is made of a stretchy fleece material with exceptional warmth retention and breathability properties.

The fleece material traps heat close to the body while allowing moisture and sweat to escape, ensuring you stay warm, dry and comfortable during outdoor activities in cold conditions. In addition, the stretchy material provides excellent freedom of movement. Whether you're hiking, skiing, or engaging in any outdoor activity, the jacket moves with you, ensuring you can easily bend, twist, and reach without any restriction. The jacket also features two zip pockets that provide convenient storage for essentials like keys, phone and snacks. A perfect choice for a wide range of activities – from hiking and skiing to everyday wear during chilly seasons – the jacket can be worn both as a mid-layer and an outer layer.

Footwear

Standing, walking and running are part of everyday life, whether you're at work, out for a run, or strolling downtown. Our footwear range is designed for those who are on their feet for long periods, providing comfort, support, and durability — all day.

Nordlite Ultra 2

NEW

MEN	1915200	EU 39 ½-48 ½, UK6-UK13
WOMEN	1915201	EU 35 ½-42, UK3-UK8

Nordlite Ultra 2 is a highly versatile road-to-trail running shoe with a TPU-reinforced upper that enhances the experience for both elite and everyday athletes during long-distance running.

This innovative running shoe features a full Cr Foam™ midsole, which provides cushion and stability with reduced weight and explosive rebound. The foam is made with a supercritical process, a single injection that offers heightened performance attributes in a non-toxic, reusable midsole material. Giving runners best-in-class performance and comfort, the shoe sits on a HyperGrip traction outsole designed for rugged road and light trail use. In addition, the upper features a lightweight, comfortable, and durable single-layer engineered mesh, reinforced with TPU coating. Furthermore, this new version introduces a softer heel for improved comfort, a more secure fit in the upper, and increased overall durability.

Cr Foam™
Cr Foam™ is an ultra-lightweight midsole foam made from preferred materials that provides excellent energy return, offering a pillow-soft ride and feel in a variety of terrains. The foam is produced with an advanced technology that includes a non-toxic process with no chemicals added to the raw materials. In addition, the elements are fully integrated under high temperature and high pressure, magnifying the foam's qualities to provide increased levels of performance.

Craft Endurance Fit®
Craft Endurance Fit® features a narrow heel cup, mid-foot lock-in, and a spacious forefoot. The narrow heel cup ensures zero slippage, providing unmatched stability across all types of terrain. The mid-foot lock-in design offers a secure fit, boosting confidence with every stride. In addition, the spacious forefoot enables natural toe and metatarsal movement, enhancing comfort even more.

Material: Upper 45% Polyester Recycled, 43% Polyester, 11% TPU, 1% Spandex, Padding 100% Polyurethane, Lining 100% Polyester Recycled, Insole Board 100% Polyester, Insole 95% Polyurethane, 5% Polyester Recycled, Midsole 100% EVA Foam Super Critical, Midsole insert 100% Nylon, Outsole 100% Rubber

Endurance 3

NEW

MEN	C17701	EU 39 ½-49 ½, UK6-UK14
WOMEN	C17702	EU 35 ½-42, UK3-UK8

With enhanced breathability and supportive features, the Endurance 3 is the perfect all-around shoe for runners tackling various terrains and conditions. Offering exceptional comfort and performance, it's the go-to choice for everyday runs and a wide range of runners.

This high-performance shoe is equipped with a full Px Foam™ midsole that ensures explosive toe-off and soft landings, promoting a smoother, more efficient stride. The expertly designed engineered mesh upper provides a snug, adaptive fit that delivers unmatched comfort and support with every stride. Its sleek, aerodynamic design boosts speed and agility, helping you reach your goals faster. Built for both roads and light trails, the Endurance 3 offers a comfortable fit right from the start, making it the ideal choice for elite athletes and running enthusiasts in search of a reliable, high-performance companion for daily runs.

Px Foam™
Px Foam™ is an ultra-lightweight midsole material that excels in energy return, shock absorption, and flexibility. Crafted using a single, natural foaming agent, this innovative material is produced without chemical cross-linking agents, ensuring a non-toxic process. In addition, raw and finished materials are completely reusable. The high-performance foam has an extremely low density making it up to 20% lighter than traditional EVA. The reduced weight combined with explosive rebound make Px Foam™ perfect for every run.

Craft Endurance Fit®
Craft Endurance Fit® features a narrow heel cup, mid-foot lock-in, and a spacious forefoot. The narrow heel cup ensures zero slippage, providing unmatched stability across all types of terrain. The mid-foot lock-in design offers a secure fit, boosting confidence with every stride. In addition, the spacious forefoot enables natural toe and metatarsal movement, enhancing comfort even more.

Material: Upper 40% Polyester Recycled, 38% Polyester, 19% Polyurethane, 3% Nylon, Padding 100% Polyester, Lining 100% Polyester Recycled, Insole Board 75% Polyester Recycled, 25%Polyester, Insole 50% Polyester Recycled, 50% Polyester, Laces 100% Polyester Recycled, Midsole 100% ETPU Foam, Outsole100% Rubber

Xplor 2

NEW

MEN	1916806	EU 39 ½-47, UK6-UK12
WOMEN	1916807	EU 35 ½-42, UK3-UK8

Xplor 2 represents the second generation of our most versatile performance running shoe, featuring a re-engineered upper that offers a more secure fit, increased ventilation, and enhanced durability for lasting comfort.

Drawing inspiration from the versatility of gravel bikes, this pro-grade shoe offers the perfect hybrid performance, feeling like a road shoe on the pavement and a trail shoe on the dirt. The shoe's new and improved 2-layer engineered mesh upper, designed with body-mapped zones, enhances ventilation and offers a tighter and more secure fit for a stable and comfortable run.
What distinguishes the Xplor 2 is its integration of Vittoria's World Championship gravel racing technology. This innovative design, inspired by the Terreno Dry and Terreno Mix tire patterns, delivers exceptional traction and durability in any terrain, thanks to its fish-scale edges and progressive siping, optimized for maximum speed where the pavement ends. For a smoother and more comfortable experience, the midsole features a softer version of our bouncy and responsive Px Foam™.

Px Foam™
Px Foam™ is an ultra-lightweight midsole material that excels in energy return, shock absorption, and flexibility. Crafted using a single, natural foaming agent, this innovative material is produced without chemical cross-linking agents, ensuring a non-toxic process. In addition, raw and finished materials are completely reusable. The high-performance foam has an extremely low density making it up to 20% lighter than traditional EVA. The reduced weight combined with explosive rebound make Px Foam™ perfect for every run.

Vittoria outsole inspired by Terreno
Crafted in collaboration with world-class bicycle tire manufacturer Vittoria, this unique outer sole features fish-scale edges and progressive siping, inspired by the Terreno Dry and Terreno Mix tire patterns. The result is a sole that is optimized for maximum speed beyond the urban landscape, offering exceptional traction and durability in any terrain.

Craft Endurance Fit®
Craft Endurance Fit® features a narrow heel cup, mid-foot lock-in, and a spacious forefoot. The narrow heel cup ensures zero slippage, providing unmatched stability across all types of terrain. The mid-foot lock-in design offers a secure fit, boosting confidence with every stride. In addition, the spacious forefoot enables natural toe and metatarsal movement, enhancing comfort even more.

Nordic Trail 2

NEW

MEN	1915497	EU 39 ½-47, UK6-UK12
WOMEN	1915498	EU 35 ½-42, UK3-UK8

Nordic Trail 2 is a lightweight and durable trail running shoe that works great for both running and speed hiking.

This technically advanced trail-running shoe features our improved Ar Foam™ midsole, delivering a responsive ride and great comfort across various off-road surfaces. The shoe's mesh upper is made from recycled polyamide and comes with TPU reinforcements in critical areas for excellent breathability and protection. It also features a durable outsole with an organic-structured tread for optimal traction on varying off-road surfaces. Whether you're navigating rugged trails or smooth roads, this shoe provides the flexibility and light protection you need for your journey.

Material: Upper 53% Polyester Recycled, 24% Polyester, 23% Thermoplastic urethanes, Padding 100% Polyester, Lining 100% Polyester Recycled, insole Board 75% Polyester Recycled, 25%Polyester, Insole 100% Polyester, Laces 100% Polyester Recycled, Midsole 100% EVA Foam, Outsole, 100% Rubber

Pacer

MEN	1915025	EU 39 ½-48 ½, UK6-UK13
WOMEN	1915026	EU 35 ½-42, UK3-UK8

Pacer is our most comfortable performance running shoe, offering exceptional bounce and stability for a smooth, speedy ride, making it ideal for everyday runs and recovery sessions.

An advanced performance running shoe that features a softer version of the successful Px Foam™ in the midsole, Pacer delivers a stable, responsive, and highly comfortable ride. Its lightweight construction provides a bouncy, energetic experience that propels you forward with each stride, while its minimal outsole design with hexagon lug pattern offers excellent road traction for a secure grip on various surfaces. In addition, the upper is made from a lightweight and breathable material that provides a snug and stable fit. A sleek design and lightweight feel make the Pacer an ideal choice for runners seeking a fast and nimble everyday running shoe.

Px Foam™
Px Foam™ is an ultra-lightweight midsole material that excels in energy return, shock absorption, and flexibility. V150 Engineered

MEN	1908265	EU 39½-50½, UK6-UK15
WOMEN	1908264	EU 35½-42, UK3-UK8

A reliable, all-purpose running shoe with a robust Vibram outsole, designed for both high-performance training and casual, all-day wear.

A perfect blend of functionality and versatility, V150 Engineered combines a fully engineered mesh upper with a robust Vibram rubber outsole, ensuring exceptional comfort and reliable grip on a variety of surfaces. In addition, Ar Foam™ in the midsole's forefoot area provides high-caliber energy return, providing an extra boost to your stride. Designed to follow the foot's natural contours, the shoe's last promotes flexibility where it matters most, allowing your foot muscles to work and perform as intended. Furthermore, V150 Engineered features neutral stability to offer the right level of motion control for runners with normal pronation or a neutral foot movement.

Material: Upper 60% Polyester , 40% Polyamide, Lining 100% Polyester, Midsole 100% EVA Foam, Outsole 100% Rubber, Insole 100% EVA Foam

PERFORMANCE BASE LAYERS

Our performance base layers are designed for those who demand high functionality during training and physical activity. Here you'll find base layers with specific features tailored to both activity type and temperature.

USE
- Worn underneath an outer layer
- Ideal for traditional high-intensity outdoor activities or long days working in cold environments

FIT
- Regular to body-hugging fit

FEATURES
- Technical performance first

FABRICS
- Sustainability first
- Made from synthetic materials and/or wool
- Technically advanced fabrics

The Performance base layers are divided into two subcategories: Active and Wool.

Active

This scale tells you how insulated versus ventilated the base layer is.

Fewer colored dots mean more ventilation (cooling), while more colored dots mean greater insulation (warming).

Use this to find the ideal Performance Active base layer for the temperature and intensity of your chosen activity.

VENTILATION ●●●●○○ INSULATION

New packaging from AW25

Wool

This scale shows the weight of the fabric – the heavier the fabric, the more warmth it provides.

Use this to find the ideal Performance Wool base layer for the temperature and intensity of your chosen activity.

Heavyweight 300 g/m²

Heavyweight for the coldest conditions.

Lightweight 200 g/m²

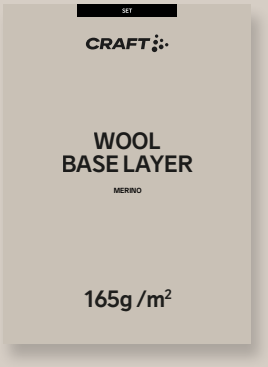

Lightweight for year-round layering.

← **165 g/m²**

Featherweight 100 g/m²

Featherweight for mild temperatures.

Thermal Mesh CN

MEN	1916673	XS-XXL
WOMEN	1916289	XS-XXL

Thermal Mesh CN is a warm and highly ventilating baselayer garment, suitable for a variety of training occasions as well as for everyday use.

This functional baselayer jersey is made from a mesh blend of recycled polyester and viscose, providing warmth and a soft feel for optimal comfort. The fabric's mesh structure offers excellent ventilation, ensuring excellent body-temperature management during most typers of workouts. In addition, ergonomic design combined with a touch of elastane provide great elasticity and freedom of movement. Designed with a slightly more relaxed fit than traditional tight-fitting baselayers. Wear it as a baselayer in colder weather or as a standalone upper in milder conditions.

Material: 62% Polyester Recycled, 33% Lyocell, 3% Elastane, 2% Polyester

CRAFT CIRCLE

RUNNING IN CIRCLES IS THE ONLY WAY FORWARD.

Craft Circle is our sustainability initiative. It is an integral thread that runs through everything we do, from design to delivery and beyond. Its purpose is simple: to promote conscious choices that minimize the environmental impact of our products.

Our initiative is aligned with six of the United Nations' Sustainable Development Goals (SDGs) from the 2030 Agenda, selected for their relevance to our business and where we can make the greatest impact. These six goals guide how we design, produce, and distribute our products, how we extend their lifecycle through circular solutions, and how we collaborate with partners and organizations for a more sustainable future. The goals have inspired us as a company and a brand to set our own ambitious climate targets for the future.

By 2030, our aim is to reduce carbon emissions from our total operations by 50% compared to our base year of 2021. To achieve this, one key step is ensuring all Craft products are made from more preferred materials (e.g., recycled materials) and using more sustainable production methods. Currently, 75% of our products are fully or partially made from more preferred fibers.

You don't just buy a Craft product – you invest in it
We design for the long run for one simple reason: the longer a product serves its purpose, the lower its environmental impact.

For us, this means creating functional and innovative products that serve a clear purpose, made from durable, sustainable materials, and manufactured to high-quality standards to ensure extended use and recyclability. As part of this process, we've developed our Craft design principles and introduced the Lifetime Guarantee program for our base layers.

Want to know more about our sustainability initiative?

Women **Men**

STANDARD 100 by OEKO-TEX® is one of the world's best-known labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.

The Craft Principle

An intensive training session will result in the body producing a considerable amount of sweat. This is just how it should be and a confirmation that you are pushing your limits. If you are not wearing functional clothes, the sweat will remain in place and block the pores, causing your body heat to rise. Eventually the clothes will turn into a damp, cold and heavy "envelope", relentlessly hampering your performance. If you are wearing functional clothes, however, the skin will stay dry and you will be able to perform at an ideal working temperature. Craft's functional clothes, in up to three layers, create a perfect microclimate and provide the basis for optimal performance. Each layer is equally important and complements the rest of the chain.

Base Layer

Base layer that efficiently transports moisture away from the skin and distributes it on the outside of the garment, where it either evaporates or is passed on to the next layer. For optimal performance and comfort, craft base layer should always be worn underneath your outer layers, regardless of weather conditions.

Midlayer

Craft midlayer provides insulation and warmth while transporting moisture and excess heat to the next layer or into the surrounding air. When the thermometer creeps downward, this layer enables you to retain valuable body heat without reducing your freedom of movement.

Protection Layer

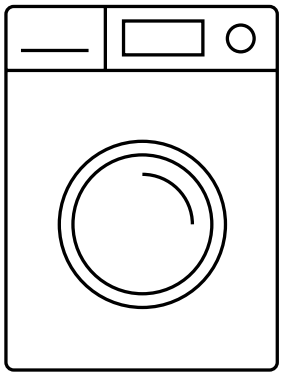

The third and outermost layer is your shield against the elements and provides comfort and performance no matter the conditions. Transcending the laws of logic, craft protection layer protects against rain, wind and cold at the same time as it releases surplus heat and moisture from the layers underneath.

Wash instructions

Follow the care instructions to extend the function, shape and lifespan of the garment.

General advice

Taking good care of your garment results in better function and protection, allowing you to focus on your training. Don't wash your functional garment more often than necessary; it saves both the clothes and the environment.

Follow the instructions on the product's care label and use an environment-friendly detergent (dose carefully).

To ensure that your garment maintains its shape and to avoid wear and tear, always close zippers, Velcro openings, buckles and buttons before washing.

Don't use fabric softener when washing functional clothes. Softener encapsulates the fibers and thus ruins the fabric's ability to transport moisture.

Material-specific advice

POLYESTER

Wash with similar colors. Clothes with prints should always be washed inside out. Remove the garments from the washing machine immediately after finishing washing. Line dry the garments, preferably in a drying cabinet.
Do not tumble dry; it's bad for the environment and wears out the clothes.

WOOL

Some of our knitted products contain wool. Wool has the amazing capacity to self clean outdoors in fresh air, most effectively in damp weather under the cover of a roof. The preferred washing temperature for wool garments is 30 degrees (also called cold wash). Spin carefully. Don't tumble dry. Shape and line dry the garment after washing.

LINED SYNTHETICS & SHELLS WITH PROTECTIVE SURFACE

Air the garment after use. If it's dirty and/or sweaty — wash. Not washing a dirty garment can reduce its breathability. Always follow the care instructions. Line drying works okay but adding heat will reactivate the water-repellent surface of the outer fabric. Use a drying
cabinet or iron on low heat.

It's important to re-impregnate your garment to maintain the surface's protective properties. This can be done either in the washing machine or with a spray. Remember to follow the instructions on the waterproofing and ensure that it's designed for breathing garments. It's important for all types of waterproofing to be exposed to heat after application, in order to maximize the effect.

JACKETS WITH DOWN FILLING

Don't wash down garments more than necessary. Often it's enough to clean the garment with a damp cloth. However, down garments can be washed as long as you do it the right way. Always follow the care instructions on the garment and use rather too little detergent than too much.

Down garments should be washed inside out and tumble-dried with tennis balls until they are completely dry.

Turn the garment inside out and make sure there's plenty of room for the jacket in the drum. To reduce wear, always close zippers, Velcro openings and buttons before washing. Choose a delicate cycle, 30°C or 40°C.

Place the washed jacket in a dryer along with three tennis balls. The balls help to distribute the down evenly and to regain its fluffiness. Dry the jacket on low temperature for as long as possible. You can help the down to spread evenly by removing the jacket every now and then, shaking it and loosen up any clumps.

The drying process usually takes longer than you think. Before you end the drying, make sure the jacket is completely dry, light and fluffy. Then hang your down garment on a hanger with lots of space around it.

It's possible to dry without a dryer, but it takes more work. You need a warm, well-ventilated room and have to shake the jacket frequently and thoroughly throughout the drying process to prevent the down from clumping.

What does it mean?

ACRYLIC see Synthetic fibers.

BONDED FABRIC are two differnt layers of fabric combined into one.

CANVAS is an extremly heavy duty fabric, often made of cotton. Used for making sails, bags, shoes and other funktions where sturdiness is required.

CVC (Chief Value Cotton) is a mix of high quality cotton and polyester, where cotton is more than 50%.

EASY CARE is an expression that means easy to handle and manage through time. The product has been treated mechanically or with chemicals to make ironing or pressing easier. The treatment will fade away over time.

ELASTANE is a common name for a synthetic fiber known for its exceptional elasticity. One of the most famous is LYCRA®.

FLEECE is the common name for a soft fabric, usually made of polyester. Have a short pile and the fabric is both warm and breathable.

GAUGE is the unit of measure that refers to the knitting machines fineness size.

INTERLOCK is a joined closely knit textile fabric, mostly used as lining.

COMBED COTTON is a soft version of cotton, a method where the shorter fibres have been removed leaving the f ibres well paralleled. The yarn takes colouring better, will get stronger and softer.

CARDED COTTON compared to combed cotton, this process is not as smooth, having more fibres "sticking out" and is often a little bit rougher.

LYCRA® is a registrated brand from INVISTA, see Elastane.

MESH is a "net" looking textile, often used in the inside of sport garments.

MICRO FLEECE is the same as fleece but with a shorter pile. See fleece.

OPEN END SPINNING is a technology for creating yarn without using a spindle. It's not suitable for thin yarn.

PIQUÉ is a weaving style, normally used with cotton. Characterized by raised parallel cords or fine ribbing.

POLYAMIDES see Synthetic fibers.

POLYESTER is the most important fiber of all synthetic fibers, see synthetic fibers.

PU is an abbreviation of Polyurethane, which is a water resistant film (or coating) used for example on outwear as jackets and bags.

REGENATE FIBRE is the name of art silk developed of the cellulose fibre. Most common is viscose, modal and acetate.

RIBBING is a pattern in which vertical stripes of stockinette stitch alternative with vertical stripes of reverse stockinette stitch. It gives more elasticity.

RINGSPUN FABRIC means of taking the rougher feel of raw cotton and making it smoother to the touch. Essentially, the process for producing ringspun fabric involved using a spinning method, such as on a spinning wheel, to create a slightly finer thread.

RIP-STOP is a light-weight nylon fabric with inter-woven ripstop reinforce ment threads in a crosshatch pattern.

SINGLE JERSEY a fine fabric most often used to make t-shirts.

SOFT SHELL is a term used on soft materials with the ability to block water partially, and comes with different degrees of water resistance and breath ability.

SYNTHETIC FIBERS is a collection name of all fibres that been artifcial produced out of synthetic polymers. Most common is polyester, polyamides and acrylic.

TACTEL is a trademarked brand produced by Invista. It has a cotton like feel.

T/C is a shortname for polyester/cotton mix, where polyester makes ca 65%.

TWILL comes from a method of weaving textiles that have a high wear and tear quality. Jeans, work wear and some shirts are often made from twill.

VISCOSE see regenerate fibres.

VELCRO® is a brand name of fabric hook-and-loop fasten ers, but it's so well known that it has become the generic term for a type of product.

Sizing & measurements

Use the chart below to determine your size. If you're on the borderline between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit. If your measurements for chest and waist correspond to two different suggested sizes, order the size indicated by your chest measurement.

How to measure yourself

MEN

WOMEN

A. CHEST
Wrap a tape measure evenly around the fullest part around the chest under your arms.

B. WAIST
Wrap a measure tape around your natural waistline.

C. SEAT
Standing with your feet together, measure around the fullest part of your hips.

D. SHOULDER AND SLEEVE LENGTH
Measure from the lowest part of the neck, over the tip of the shoulder and down the outside of the arm, past the elbow and to the wrist. Keep the arm slightly bent.

E. INSIDE OF LEG
Standing with your feet together, measure from the crotch all the way down to the floor. Don't forget to stand as straight as possible. You may have to ask a friend to help you.

F. LENGTH
The total length of your body.

Men

SIZE	XS	S	M	L	XL	XXL	3XL	4XL

Footwear Size Chart

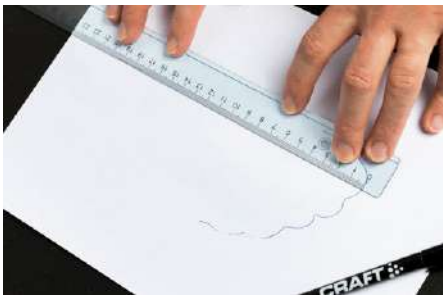

How to measure your feet

STEP 1
Stand up straight on a hard surface with your heel against the wall and a piece of blank paper taped to the floor.

STEP 2
Have someone mark the longest part of your foot (referred to as heel-to-toe length) on the paper with a pen or pencil, or measure yourself if necessary. Repeat with the other foot, as sizes may be different on left and right foot.

STEP 3
Use a ruler to measure the heel-to-toe length you marked for each foot.
